## NOVEMBER MISSION MOMENTS

### **Lung Cancer Awareness Month**

November is Lung Cancer Awareness Month. Lung Cancer is the second most common cancer in both men and women in the United States. Since 1992, ACS has funded \$339.69 million in lung cancer research across 807 grants, supporting 736 investigators at 270 unique research institutions. If you are interested in learning more, you can visit [cancer.org](http://cancer.org).

### **National Caregiver Month**

November is National Family Caregiver month, a time to celebrate all of the wonderful caregivers in our lives. Their role in the entire journey is so important, and ACS thanks them for all they do. This November, ACS is so thankful for caregivers and everyone else who plays a role in the fight against cancer.
